

DIGITAL SKILLS EVALUATION TOOL AND SUPPORT

DIGISETS is an ERASMUS+ funded project aimed at reversing the growing mismatch between existing digital skill levels and needed skill profiles in the tourism and retail sectors. The project will be running for two years and it involves organizations from AT, BG, ES, EL cooperating to reach the following objectives:

1 DIGITAL COMPETENCE FRAMEWORK

The first result of the project is a Competence framework of digital skills needed for service workers in the tourism and retail sectors. The Framework will serve as the main reference tool for the whole project.

2 DIGITAL SKILL EVALUATION TOOLKIT

The toolkit provides trainers with an online assessment tool for the digital skills of potential employees. The tool is based on an open modular platform, which enables the content and structure of test questions to be adapted to different service sectors and skill levels.

3 TRAINER GUIDELINES

The last result will be a support tool for trainers to help them in developing training material to enhance digital skills for employees and service workers in the tourism and retail sector.
